SUMMARY

I am a switcher, but last a few month I have been intensively learning about Software testing. I have strong knowledge and practice in software testing theory and also I have relevant basic knowledge of technologies. I have experience in working with Postman, JIRA, Testrail. I am ready to carry out the assigned tasks after a short acquaintance with the new project.

SKILLS

Knowledge of HTML, CSS, SQL, Git

Knowledge of Postman, Fiddler, MySQL, DevTools, SourceTree, Swagger and Selenium IDE

Experience with writing test cases, checklists and bug reports
